PROFESSIONAL PROFILE

Visionary and self-driven Senior Technology Leader with over 28 years of experience. Specialize in delivery of large-scale technology programs, by simplifying development, data, integration, testing and operations for complex teams via AI/ML, SaFE Agile and DevOps driven practices while driving innovation. Self Taught AI Innovator that develops POCs that scale with precision (refer Website for cool products built). Lead with Digital and AI Innovation mindset.

CORE COMPETENCIES and KEY ACCOMPLISHMENTS:

- **Data Management & Governance** – Expertise in provider, Rx, and payor data operations, including ETL, Mulesoft, SSIS, Mirth Connect, and SaaS startup platform management.
- **Engineering & Data Operations** – Built and scaled Reveleer’s engineering and data ops from the ground up, optimizing EDI, claims processing, and Medicare enrollment, and data normalization via AI saving \$100K+ per customer.
- **Technical & Production Operations** – Led 24x7 production support, SRE, DevSecOps, and ITIL/ITSM, resolving 10K+ security vulnerabilities in under a year, saving thousands annually.
- **IT Shared Services & Cost Optimization** – Designed and scaled shared IT services across 10+ departments with 1,000+ users at KPIT, achieving 10-15% cost savings per project (multi-million-dollar impact).
- **PMO Governance and Management** – Lead and delivered multi million dollar engagements that spanned multi team, cross geography. Excellent stakeholder management, Budget, risk mitigation and management.
- **Agile & DevOps Transformation** – 15+ years leading agile engineering teams (Python, Java, C++), scaling from 1 to 100+ globally, driving SaFE Agile adoption and DevOps automation with \$2M+ YoY savings.
- **Tech Mergers & Cloud Migration** – Led large-scale tech integrations, cloud migrations, and data center consolidations, optimizing IT infrastructure and saving \$20M+ YoY.
- **Vendor & IT Cost Management** – Expertise in outsourcing, vendor negotiations, and automation-driven ITSM transformation, cutting Opex by 20%.
- **Leadership & DEI Advocacy** – Mentor, women in tech & DEI advocate, and strategic advisor to C-suite executives on vision, strategy, and roadmap development.

EXPERIENCE**Reveleer, Glendale, CA**

Reveleer, a leading healthcare data analytics SaaS Platform with a mission to change Value Based Care through effective Analytics and AI.. SaaS B2B product Startup.

VP Engineering, Data and Ops, Jun 2024 – Feb 2026

Direct Reports: ~15 (Mostly Ppl Managers and Architects)

Portfolio: ~15M USD

- Reporting to the CTO, accountable to build and scale a brand new Engineering and Data Operations technology function in lieu of the SaaS goal for Reveleer. The team is accountable to support major HealthPlan business data operations such as **Claim Processing, Revenue Reconciliation, EDI processing, HEDIS , Risk and Quality dataLoads and DataExtracts** to name a few. Also supporting new company acquisitions and tech integrations
- **Led support for Reveleer's AI platform**, including the proprietary **EVE™ Evidence Validation Engine**, ensuring high system availability, reliability, and data integrity for payer and provider clients
- **Orchestrated AI-powered Data Normalization**, optimizing dataload workflows involving structured and healthcare data and making the AI models reusable across various lines of business thereby improving speed to market by over 40%
- **Enhanced value-based care delivery**, supporting the rollout of AI-driven risk adjustment modules (Risk 2.0 and retrospective risk adjustment), boosting coding accuracy to ~98% and reducing manual intervention
- **Build out Charter and Operating model** for the team and obtain alignments and partnerships with key stakeholders across the company. Setup catalog of service offerings for the team, with determining SLAs, entry and exit criteria
- Replace outdated tech stack for Integration Layer with MuleSoft ® which is market competitor in the space.
- Received recognition in terms of stock from the Company Board in the first two months of joining on the exceptional hiring strategy adapted in filling out open positions and setting team up for scaling to support high growth

Elevance Health (Caremore/Aspire Health Plan), Cerritos, CA

Elevance Health, Inc. is an American health insurance provider. Prior to June 2022, Elevance Health was named Anthem, Inc. **CareMore** and **Aspire Health** are subsidiary of Elevance Health through its Caredon brand, specializing in Chronic Care Management, preventive care and Home Based care.

Sr Director IT, Sept 2022 – May 2024

Direct Reports: ~30 Engineers (incl Ppl Managers)

Portfolio: ~30MM USD

- Reporting to the CIO, accountable to lead the technical vision and design decisions for **Care Delivery suite** of products as well as the **IT shared services department** that will support product teams across the department to build **Reliable, Available, Scalable and Secure** solutions
- Lead Engineering and **SRE/Prod Operations teams for DevOps, Release and Change Management, Test Data Management, QA automation** for the IT department, providing direction and support to AppDev community, Business and IT Stakeholders towards delivering products and solutions that are resilient and cost efficient.
- Co-lead for EPIC EMR rollout and sunset of two older EMR systems. Multi million dollar engagement involving large IT, Business and vendor stakeholders.
- Optimized operations with end-to-end monitoring solutions, DR Setup, enhanced speed to delivery for developer community by baking in tools such as **QTest®, Microsoft CoPilot®, Chef Inspec®, etc into the CI/CD pipeline**, resulting in cost saves of over 250k capex and opex , sprint over sprint
- Integrated CareMore and Aspire technology, adopting enterprise standard platforms and automation that powered the turnaround plan. **Combined two data centers**, implemented a universal laptop, **moved to O365/Teams**, launched a new telephony platform, implemented redundant data networks for all clinics, and improved workflows. This IT consolidation laid a foundation for future Business growth, with cost saves and avoids running into millions of dollars
- Accountable for technology infrastructure for 43+ brick and mortar clinics across the United States supporting the Caremore Care Delivery members. Supporting over 100k patients with over \$1.2B in revenue
